Ascribing to BEE codes of Good Practice

An increasing number of SATI growers ascribe to the transformation guidelines set forth in the BEE codes of good practice. Workshops on BEE compliance are facilitated regularly by the transformation manager at no attendance cost to SATI growers. At these workshops, growers and consultants working in the industry are addressed by a prominent BEE verification agency on the following issues;

1. Documentation required for BEE certification;
2. Interpretation of the codes of good practice in the Table Grape setting;
3. Relevancy of the codes in terms of markets and legal requirements;
4. Definitions and cautions against BEE fronting.

Growers are encouraged to participate in the process of BEE verification and compliance. Contact the SATI office to find out about the next workshop in your area.

Questions and enquiries can be directed to;
