P.O. Box 12789

DIE BOORD

7613

30 January 2012

Dear Ms. Lindi Benic

RE: CANCELLATION OF ALDICARB ACTIVE CONSTITUENT, PRODUCTS CONTAINING ALDICARB AND LABEL APPROVALS OF PRODUCTS CONTAINING ALDICARB WITH EFFECT FROM MAY 2012

The above matter refers.

1. BASIS FOR CANCELLATION

The illegal use of aldicarb has been associated with severe poisoning of dogs and humans in South Africa. The registration holder, Bayer Crop Science has ceased all sales of Temik (active ingredient, aldicarb) on 31 May 2011. The company agreed to collect and dispose of all redundant or unwanted inventories of Temik.

2. INSTRUCTIONS FOR DEALING WITH CANCELLED ACTIVE CONSTITUENTS AND PRODUCTS

The following instructions apply to persons having possession or custody of stocks:

2.1 Supply

The supply and distribution to the end-user of products containing the active ingredient aldicarb is only permitted until 31 March 2012.

2.2 Possession and custody

Possession and custody of products containing aldicarb as an active ingredient are permitted until 31 May 2012.

2.3 Use

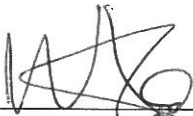

Use of the constituent aldicarb and products containing aldicarb as active ingredient are permitted, provided they are used in accordance with label instructions, until 31 May 2012.

3. WARNING

Any person may not possess any materials containing aldicarb with the intent to supply or use, except in accordance with these instructions. The failure to comply with these instructions will result in an offence against the Fertilizers, Farm Feeds, Agricultural Remedies Act, 1947 (Act No. 36 of 1947). The Registrar of Act 36 of 1947 will take appropriate action in the event of non-compliance. It will be an offence should any person possess, with the intent to supply, use or deal with the active constituent without the authorization of the Registrar of Act 36 of 1947 after 31 May 2012.

Trusting the above is in order.

Yours faithfully

Mr. Jonathan Mudzunga
Registrar: Act No. 36 of 1947
